A recent trend in health care is self-care. It is defined as 'those health generating activities that are undertaken by the persons themselves. It refers to those activities individuals undertake in promoting their own health, preventing their own disease, limiting their on illness, and restoring their own health. Self care activities comprise observance of simple rules of behaviour relating to diet, sleep exercise, weight, alcohol, smoking and drugs. Others include attention to personal hygiene, and cultivation of healthful habits and life-style. In other words, health must begin with the individual.

33. Write a critical appreciation of the following poem :

And it was at that age
Poetry arrived in search of me.
I don't know I don't know
where it came from
from winter or a river
I don't know how or when,
No, they were not voices,
they were not words
nor silence,
but from a street it called me
from the branches of the night,
abruptly from the others,
among raging fires or returning alone,
there it was, without a face
and it touched me.

34. Write an essay on 'Rasa as Aesthetic experience.

35. Write an essay on classical criticism.
